

Covid testing and quarantine policy

(Updated 01/04/2022)

We follow Government guidelines regarding self-isolation and testing. If a member of staff is instructed by the Test and Trace department to self-isolate, they will do so for the prescribed period. Teachers are currently tested twice a week using a lateral flow test provided by the local authority. Should Covid symptoms present, the teacher will be asked to return home, get tested, and only return to school either after a negative test, or after a full recovery. It is not our policy to make use of non-NHS Covid testing.
